

# Mahutin Lucien VIDAGBANDJI

📍 : LMAH, Université Le Havre Normandie, France.

Email ✉ : [mahutin-lucien.vidagbandji@univ-lehavre.fr](mailto:mahutin-lucien.vidagbandji@univ-lehavre.fr) ; [lucien.vidagbandji@gmail.com](mailto:lucien.vidagbandji@gmail.com)

Personal webpage 🌐 : <https://lucienvidagbandji.github.io> tel ☎ : +33773446863.

## Current Position

---

- **Temporary Teaching and Research Assistant (ATER)**, UFR Sciences et Techniques, Université Le Havre Normandie ( Since Sept. 2025).  
**Affiliation** : Laboratoire de Mathématiques Appliquées du Havre (LMAH).

## Research Interests

---

Statistical modelling, Regression models, Statistical inference, Statistical learning, Generalized Random Forests, Machine Learning, Extreme value theory, Applied probability.

\*\* Open to new research topics and collaborations.

## Education

---

- **Ph.D. in Statistics** (March 20, 2026), LMAH, Université Le Havre Normandie, France.  
**Thesis title** : *Extreme Quantile Regression Based on Conditional GEV Models and Generalized Random Forests*. [[Thesis manuscript](#)]  
Supervisors : [Alexandre Berred](#), [Cyrille Bertelle](#), Laurent Amanton.  
Reviewers : [Clément Dombry](#), [Ghislaine Gayraud](#).
- **M.Sc. in Statistics and Probability** (2022), Institut de Mathématiques et des Sciences Physiques (IMSP), UAC.
- **B.Sc. in Fundamental Mathematics** (2019), Faculté des Sciences et techniques, UAC.

## Publications and Preprint

---

- Vidagbandji, M. L., Berred, A., Bertelle, C., & Amanton, L. (2025). Generalized random forest for extreme quantile regression. *Communications in Statistics – Simulation and Computation*, 1–24. <https://doi.org/10.1080/03610918.2025.2543854>.
- Vidagbandji, M. L., Berred, A., Bertelle, C., & Amanton, L. (2026). Penalized estimation of GEV parameters for extreme quantile regression. *Journal of Statistical Theory and Practice*, 20 (2), pp.55. <https://doi.org/10.1007/s42519-026-00568-1>. [[Hal Preprint](#)]
- Vidagbandji *et al.* (2026). Existency and Consistency of weighted maximum likelihood estimator for extreme quantile regression. *Submitted* [[arxiv Preprint](#)].

## Communications

---

1. Vidagbandji *et al.* *Parameter estimation of the generalized extreme value distribution using generalized random forest methods*. 18<sup>e</sup> Journée de la Fédération Normandie Mathématiques, Université de Caen Normandie, France, 17 Juin, 2026.
2. Vidagbandji *et al.* Local Weighted Maximum Likelihood Estimator for Extreme Quantile Regression. [Atelier des doctorants des laboratoires LMI et LMRS](#), Université de Rouen, 10 Mars, 2026. ([Invited](#))

3. Vidagbandji *et al.* (2026). *Extreme quantile regression using generalized random forests and block maxima approach*. [International Conference on Extreme Value Analysis, Probabilistic and Statistical Models and Their Applications \(EVA\)](#), University of North Carolina at Chapel Hill, USA, June 22–27, 2025.
4. Vidagbandji *et al.* *Penalized estimation of GEV parameters for extreme quantile regression*. [56<sup>e</sup> Journées de la Société Française de Statistique](#), Campus Saint-Charles, Aix–Marseille Université, France, June 2–6, 2025.
5. Vidagbandji *et al.* *Combining Extreme Value Theory and Random Forests for High Quantile Regression*. [17<sup>e</sup> Journée de la Fédération Normandie Mathématiques](#), INSA Rouen Normandie, France, May 26, 2025.
6. Vidagbandji *et al.* *Generalized random forest approach for GEV extreme quantile regression*. [Rencontres des Jeunes Chercheurs Africains en France \(6<sup>th</sup> edition\)](#), Institut Henri Poincaré, Paris, France, December 12–13, 2024.
7. Vidagbandji *et al.* *Generalized random forest for extreme quantile regression*. [26<sup>th</sup> International Conference on Computational Statistics \(COMPSTAT\)](#), University of Giessen, Germany, August 27–30, 2024.
8. Vidagbandji *et al.* *Parameter estimation of the generalized extreme value distribution using generalized random forest methods*. [16<sup>e</sup> Journée de la Fédération Normandie Mathématiques](#), Université de Rouen Normandie, France, July 5, 2024.
9. Vidagbandji *et al.* *GEV-extremal random forest*. [55<sup>e</sup> Journées de Statistique de la Société Française de Statistique \(SFDS\)](#), Université de Bordeaux, Campus de la Victoire, France, May 27–31, 2024, pp. 1098–1105.
10. Vidagbandji *et al.* *Quantile regression : an approach based on the GEV distribution and machine learning*. [French Regional Conference on Complex Systems](#), Université Le Havre Normandie, France, May 31–June 2, 2023, pp. 515–518.

## Academic Internships

---

- **May–August 2022** : Research internship (M2–IMSP).  
*Modeling spatial extremes using normal mean–variance mixtures*.  
Supervised by Aliou Diop.
- **June–August 2021** : Research internship (M1–IMSP).  
*M-estimators and Z-estimators*.  
Supervised by Carlos Ogouyandjou and Freedath DJIBRIL MOUSSA.

## Professional Experiences

---

- **2024–present** : Co-organizer of the LMAH PhD students’ seminar, Université Le Havre Normandie, France.
- **December 2024** : Co-organizer of the MIIS and PSIME Doctoral School Day, IUT Le Havre, Quai Frissard, Université Le Havre Normandie, France.
- **September 2024** : Member of the organizing committee of the Bio Dynamics Days 2024 seminar, LMAH, Université Le Havre Normandie, France.
- **Since 2023** : Teaching Associate, UFR of Science and Technology, Université Le Havre Normandie, France.
- **May 2023** : Member of the local organizing committee of the French Regional Conference on Complex Systems (FRCCS 2023), LITIS, Université Le Havre Normandie, France.

## Teaching Experiences

---

- **2025–2026 and 2026–2027 :**

- Biostatistic for 2<sup>nd</sup> year undergraduate students in Life Sciences (25 h)
- Analysis 1 for 2<sup>nd</sup> year undergraduate students in Mathematics and Computer Science (30 h).
- Probability for 2<sup>nd</sup> year undergraduate students in Mathematics and Computer Science (20 h).
- Algebra for 1<sup>st</sup> year undergraduate students in Mathematics and Computer Science (50 h).
- Basic Mathematical Tools 1 & 2 for 1<sup>st</sup> year undergraduate students in Chemistry and Life Sciences ( $2 \times 25 \text{ h} + 17 \text{ h}$ ).
- Mathematics for Computer Science for 2<sup>nd</sup> year undergraduate students in Computer Science (30 h).

- **2024–2025 :**

- Practical sessions in L<sup>A</sup>T<sub>E</sub>X for 1<sup>st</sup> year undergraduate students in Mathematics and Computer Science (6 h).
- Basic Mathematical Tools 1 & 2 for 1<sup>st</sup> year undergraduate students in Chemistry and Life Sciences (26 h).

- **2023–2024 :**

- Practical sessions in L<sup>A</sup>T<sub>E</sub>X for 1<sup>st</sup> year undergraduate students in Mathematics and Computer Science (6 h).
- Basic Mathematical Tools 1 & 2 for 1<sup>st</sup> year undergraduate students in Chemistry and Life Sciences (26 h).

## Technical Skills

---

- **Programming :** R, Python, C.
- **Deep Learning :** PyTorch.

## Scholarships & Funding

---

- **2022–2025 :** PhD project at LMAH, Université Le Havre Normandie, France.
- **2021–2022 :** Master's scholarship recipient, African Center of Excellence (CEA–SMIA).
- **2017–2020 :** Government scholarship of Benin for undergraduate studies, UFR Sciences et Techniques, Université d'Abomey-Calavi, Benin.
